TREASURE HUNT

Here stands a tree of might and power
What's its name? It's called after a flower.

Around the place are four ladies fair
Representing the seasons. They are found where?

Over here the lions roar
But from their mouths what should pour?

They are found in rocks as a rule
But here the rocks are in a pool

Over here a garden can be seen
Who designed it? It is called after a Queen

The Grass Tree comes from down under
Where would you find it? I wonder!

There is an octagon in the trees
Give me it's name or number please

It's nice to walk near water and shade
But can you tell us when the canals were made?

Oak leaves in wood but not in trees
When you find one give location please

All over the gardens trees abound
But where is the one with the belt around?

You are doing well - don't give up
But where around here used you get a cup?

This tree, in Ireland is often seen
But this one's special - it's evergreen

As you walk around in great big strides
Can you name the tree that your path divides?
